Company Background

- CellarPro was founded in 2008 by the owners of Le Cache Premium Wine Cabinets
- Our goal was to upgrade the components, add new features and improve performance of the cooling systems in our premium wine cabinets
- We invested nearly a year in designing, building and testing the CellarPro cooling system
- The results speak for themselves: CellarPro outperforms the competition in every category
- All CellarPro cooling units are assembled and tested in our state-of-the-art facility
- We support our products by providing a toll-free number, an informative website and a commitment to excellent customer service
- Each unit is backed an industry-best 5-year warranty on parts and labor

Comparison of Features

| | CellarPro 1800QT | Breezaire WKCE1060 |
|--|---------------------|-----------------------|
| LED Digital Display: Provides temperature, settings and alarms information | ✓ | ✓ |
